Sc No. 41 3-2-31

Station Bellary., *Dated the* 3rd February 1931. 19 .

From (Name) M.R.Ry. N.Narayana Rao Garu, B.A.B.L.,
(Designation) Chairman Municipal Council Bellary.

To The Secretary to the Government of Madras,
Local Self Government Department.
Fort Saint George Madras.

Sir,

During the visit of the Honourable the Chief Minister on 22nd instant, an address was presented to him, copy of which is hereto attached, and in reply he has said that he would be pleased to have the subjects pending settlement, discussed personally with the Chairman or with the members of a Committee. He has told us that if a deputation is led, he would send for all officials concerned and discuss the subjects and a settlement can be arrived at.

Hence the Council has, at its meeting held on the 29th instant, passed the resolution, copy of which is hereto attached.

The question of subsidy payable to the High School as well as of extensions to the same, will have to be discussed

with the Honourable the 3rd Minister in charge of Education.

The subjects that will have to be discussed with the Honourable Chief Minister are:-

1) Grant of House connection (Water Supply)

2) Extension Scheme of Water Supply to Cantonment & Fort area.

3) Drainage Scheme

4) Working the water works Engines at the Hagari with electricity. Estimate prepared therefor.

5) Supply of electricity to the woollen plant in the Central Jail

If any other subjects require discussion, I shall intimate the same to you later on.

I request you to kindly fix a date for the deputation and intimate the same. The place may also be kindly fixed.

I.M/3/2

Chairman M.C.

To

M. R. RY.

THE HON'BLE DEWAN BAHADUR

BOLLINI MUNISWAMI NAIDU GARU, B. A., B. L.,

CHIEF MINISTER TO GOVERNMENT OF MADRAS.

Honoured Sir,

WE, the members of the Bellary Municipal Council, esteem it a privilege to congratulate you on your elevation as Chief Minister and to thank His Excellency for his choice of a Ministry which has given us much satisfaction. We have great pleasure in according a hearty welcome to you on your visit to our town.

2 The Water Supply Scheme is a non-House Connection Scheme. In G. O. No. 2505 of 14-12-27, Government has been pleased to consider that the question of granting house-connections should be deferred until the construction of the head-works has been completed, the supply has been extended to Cowl Bazaar and if necessary, to the Fort and Cantonment and until the scheme for the extension of the distribution mains and the erection of additional fountains has been carried out.

3 The conditions laid above have been almost fulfilled; for construction of the head-works has been completed; the supply has been extended to Cowl Bazaar and the scheme for the extension of mains and erection of additional fountains is in the course of execution; while the scheme for the extension of supply to Cantonment and Fort area has received the necessary sanctions. The infiltration wells at Hagari have an inexhaustible supply of water and never has there been at any time any diminution of supply in them since 1927 when the scheme was brought into operation. In addition to 77 public fountains, Government has been pleased to sanction house connections to the Central Jail, General Hospital, Women's Hospital, Collector's Office, District Judge's Court and the Cosmopolitan Club; the Council has agreed (and Government has sanctioned) to supply between 20,000 and 24,000 gallons every day to the Railway authorities for the use of their staff and of their locomotives. Thus in a way several house connections have been granted. The scheme has been sufficiently tested and the fact that the water level goes down by about 1 to 1½ feet after pumping for 16 hours and again restores itself to its normal level after a short interval, facilitates grant of house-connections as early as possible. Further house-connections with meters fixed mean additional income to the Municipality which it is anxious to earn in view of the extra expenditure to be incurred in respect of the drainage scheme. House-connections in respect of houses in the two extensions of Satyanarayanapet and Gandhinagar can be easily granted, as the question of drainage does not arise in view of large areas around them; and in respect of houses in Brucepet etc., they may be granted with sufficient safeguards and restrictions. We pray they may be so granted and thus your visit to the town may be associated with the grant of the same.

4 The preliminary report regarding the drainage scheme has been completed and the Council has deposited Rs. 2,880 on 11-12-1929 for the maintenance of the special staff for the preparation of detailed plans and estimates. The Council has also agreed to pay the leave and pensionary contribution of the special staff and further agreed to take up the scheme in instalments, Brucepet being taken up first; and has also suggested the ways and means therefor. We are glad to

at a cost of 4.65 lakhs be taken up as it has been pleased to find that the Council can finance the scheme on the half grant and half loan system and that detailed plans and estimates be prepared. We are deeply grateful to the Government for the sanctioning of the scheme and pray that the further work be taken up very emergently as the need is very keenly felt.

5 A scheme at a cost of Rs. 78,000 for the extension of water supply to Cantonment and Fort area, had been sent up and the Council has approved of it and the residents of both the above areas have consented to the levy of water tax from 1-4-1930. In the Cantonment are located the Alipuram Jail and the Tuberculosis Jail, the latter of which requires water very badly. We pray that it may kindly be taken up as an urgent measure and that the cost thereof may be met by 3/4 grant and 1/4 loan.

6 The grant of subsidy to the Municipal High School requires very close examination. This is a full-net-cost school and the Government used to bear the whole net-cost till 1926 when lump grants were replaced by subsidies. Under G. O. No. 270 (Law & Education) of 19-2-26, subsidies to Local Bodies in respect of Schools were fixed for a triennium and are revisable only after the lapse of the triennial period and the subsidy payable to the Council was fixed at Rs. 8,550. The staff of the High School had been clamouring for an increase in their scale of salaries which they had not for a long period. The Council was doubtful if any increase in the salaries paid to the staff would be considered in the subsequent fixing up of the subsidy at the triennial revision. In G. O. No. 2001 L & M., dated 30-5-1927 Government had been pleased to state "It is open to the Municipal Council to sanction such increase of salary to the establishment as it deems necessary. When the subsidies are next revised in 1928-29 the additional expenditure entailed by the increased salaries will be taken into consideration in determining the subsidy payable for the High School". Accordingly the scale of salaries has been raised and many improvements have been added to the school. Subsidies were revised in 1928-29 and we regret to observe the subsidy to the Council has remained the same and G. O. No. 2001 has remained a dead letter.

7 The Municipal High School is not self-supporting and the net expenditure borne by the Council after deducting the subsidy is Rs. 6160 every year. The question of subsidies requires overhauling. It is neither uniform nor equitable. Schools in the same District receive ~~varying degrees of support~~. For instance Adoni Municipal High School gets Rs. 12,300 while Harapanahalli District Board School gets higher than ours. Kurnool High School gets Rs. 11,050 and Cuddapah School gets Rs. 19,000 We pray that the Government will be pleased to sympathetically consider the question and enhance the subsidy payable to the Council by Rs. 6,160 more, the amount spent by us in view of the Government promise conveyed in G. O. No. 2001 of 27.

8 The present High School does not accommodate all the classes and for want of space therein, some classes are still held in a rented building. Plans and estimates regarding extension of the school have been sent to the Governament but the Government have in G. O. No. 2575 Ms 17-12-30 been pleased to say that owing to financial stringency they are unable to consider the same in connection with the next year's budget. The scheme is estimated to cost about Rs. 36,000 and we request you to kindly see that this extension is provided for.

In conclusion we pray to God that He will be pleased to give you the necessary strength and health to serve your fellowmen as well as you desire to serve them.

We beg to remain,
Honoured Sir,
Your most obedient Servants,
The Members of the Bellary Municipal Council.

Sir,

Date for Deputation-My letters Nos: R.S.C.41/5-2-31 and 5-4-31.

.....

His Excellency's visit to Bellary District is fixed for 8th, 9th and 10th July and intimation has been given to me about it. The Council has resolved to present him with an address. The Collector has desired that the draft address be sent to him during next month. The subjects to be mentioned in the said address will depend on the results achieved by the deputation, ior, if the subjects pending settlement are satis--factorily disposed of, by the Honourable Chief Minister and the Minister ior Education, I will be in a position to know what has to be mentioned in the address. It is necessary that

the

8

business of the deputation should be over before the draft address is got ready. Hence I request you to kindly intimate to me date or dates on which the deputation can meet the two ministers. The said date or dates may be fixed some time after 12th May.

Sir,

The Honourable Chief Minister came to Bellary in January and during his visit, the suggestion of deputation was made. The questions to be discussed and settled have been waiting for settlement for a long time and the feeling the public over the question of house connections and drainage scheme etc has become very acute. Four months are over since the visit of the Honourable Chief Minister and to postpone the date to August will mean delay for 3 months more. I request you to kindly reconsider the question & have the deputation fixed up by the end of this month or by the 1st week of June.

Dup 225

My dear Narayana Rao,

Your letter dated 12th May. I have gone through the file/regarding with to giving house connections. The Sanitary Engineer is being consulted on the matter and his reply has to be awaited. It will take some time before I ~~communicate~~ have his reply.

With regard to extension of water supply scheme to Cantonment and Fort, a memorandum was issued to your office on 7-10-30 asking you to report the probable amount of income that can be derived by levying the property tax in the Cantonment and Fort areas at 7½ % for water and drainage purposes and also to furnish other particulars. The reply of the Council has not yet been received. The question can be considered only after that reply is received.

As to the electrification of the water works plant, I find that the proposal was dropped on 10-3-29 in G.O. No.1732 P.H. With regard to your drainage scheme the employment of a special staff was sanctioned in G.O.No.233 W dated 28-1-31 and further action can be taken only after the plans and estimates have been prepared and received. As to classification of roads, I may say that the question is still under consideration.

From the foregoing you will see that there is not much good your going over here for interview now. I thought it is better that we meet in Madras in August when the various departmental heads can also be got to discuss all the points. But if you think it advisable to see me now, I shall be glad to receive you and the other members of your Council in June, say on the 4th or 5th, if that date will suit you. The Hon.Mr.Kumaraswami Reddiar will not be here that day as he will be on tour in Tinnevelley at that time. Please reply if you are coming.

With best wishes,

Yours sincerely,

Dear Mr: Muniswami Naidu,

p. b. auto

Thanks for your detailed letter. In view of your reply I do not think there is any use of our going to Ooty.

House connections are very urgent. I request you to kindly get the views of the Sanitary Engineer as early as possible.

As for the drainage scheme the staff has not been yet appointed. Money has been deposited and there is no reason why the staff should not have been appointed.

I request you to kindly do the needful.

I trust you are in good health.

Yours sincerely,

Narayanarao

C.R:--26-5-31

The Brucepet extension scheme for Rs.58,000, sanctioned in G.O.No.595 P.H. dated 15-3-30, which provides for 45 additional fountains has not yet been completed. The schemes for the supply to Fort and Cantonment areas and Alipuram jail yet remain to be sanctioned and executed. It is therefore premature to consider the general sanction of house connections. Specific connections such as those referred to in para 3 or the address may however continue to be given with proper safeguards.

In memo No 13956 - 1E, P.H. d 2-5-1931 the C.M.C. Bellary was informed that the Hon'ble the Chief Minister and the Minister for Education will be pleased to receive the deputation of the Municipal Council in August 1931 after their return to Madras from Ootacamund. The C.M.C. Bellary now request Govt to fix a date for the deputation & the subjects which the Deputation proposes to discuss with the Hon'ble Ministers have been noted ~~on p~~ 20-25 of the file referred to above, viz:-

(i) Water Supply
(ii) Drainage
(iii) Roads
(iv) Subsidy to Municipal High School

It is submitted for orders whether the Council's request may be complied with and if so, what date may be fixed for the meeting.

Attention is invited to ~~Hon'ble~~ Hon'ble M.'s D.O. on p. 15 and the further D.O. issued on p. 26 of (L).

1. Matters Connected with Water Supply.

(a) House Connections

The Bellary P[illegible] represents that the question of granting house connections may now be taken up for consideration as the conditions laid down in G.O. No 2505 P.H.D 14-12-27 have been almost fulfilled. In this G.O. the Council was informed that the question of granting house connections should be deferred until the construction of head works has been completed the supply has been extended to the Cowl Bazaar, and if necessary, to the Fort and the Cantonment and also until the scheme for the construction of additional fountains has also been carried out. ~~The Council represents that~~ In this connection please see the linked file relating to the Scheme for the extension of water to the Fort and the Cantonment. this scheme has not yet been carried out as the financing of the scheme is still under consideration. The scheme for the Construction of additional fountains is still under execution and the funds allotted for the purpose have not yet been drawn. It appears to be too early to ~~consideration~~ Consider the question of granting house connections. The San[illegible] Engr may however be consulted before giving any reply on this point.

Extension of Water Subbly Scheme to Cantonment & Fort

The Council requests that the cost of this scheme may be met by payment of a 3/4 th grant and 1/4th loan. In this Connection please see the notes on pp 1-8 cf in the linked file. The main Water Subbly Scheme has been financed on the basis of a 3/4 grant. This scheme has been designed to subbly water to the Cantonment and the Fort area and it has therefore been suggested that the extension may be deemed to be a part of the main Scheme and that the Council's claim to a 3/4 grant may be considered favourably. The Finance Dept has not yet been Consulted in the matter. In Memo No 32751-2E, P.H. d 7-10-30 the Chairman has been requested to report the probable amount of income that can be derived by levying the property tax in the Cantonment and the Fort areas at 3/4 h.c. for Water & Drainage purposes and also to furnish other particulars. The reply of the Council has not yet been received. The Council's request can be considered only after its reply to the above memo is received.

(c) Electrification of the water works plant-

BB

This proposal was dropped in G.O No 1130 P.H. dt 10-7-49 for the reasons stated by the Sanit Engr in his letter No 3564-G dt 29-6-1949. He pointed out that the gas plant was installed only recently and that the question may be taken up for consideration when additional plant has to be installed or the existing ones have to be replaced.

Classification of roads - Item 5 of Resn on p 3 C.F.

It is not clear what the deputation wants in this matter. The Bellary M.C. has for some time past been pressing for the classification as a trunk road of the portion of the Kurnool - Bellary - Bangalore Road passing through M. limits. ~~as a trunk~~. In the proposed reclassification of roads the road from Bellary to Kurnool has been made to form part of C_1. The Chairman has also been told that this question is under the consideration of Govt.

Revision of Subsidy to the Ml High School - Resn on p. 3 C/f.

The revision of the subsidy is a matter for Law (Edn) Deptt - A copy of the MK 27/2. correspondence may be sent to that deptt for Be necessary action.

Education deptt

(A) In 1925-26 the Govt. introduced a system of fixed subsidies to local bodies for approved educational institutions for a triennium, the amounts fixed thereby being subject to revision every three years.

p 6 of (A) In G.O. No.270 Edn., dated 19-2-1926, the subsidy payable to the Municipal Council, Bellary, towards the cost of maintenance of the Municipal High School was fixed at Rs.8,550. This amount was determined on the basis of the average net expenditure incurred on the institution for the years 1922-23 and 1923-24. In 1927 the council requested that the subsidy might be raised to Rs.12,500, so as to enable the council to sanction revised scales of pay to the teachers employed in the school. In G.O. No. 2001 L & M., dated 30-3-1927, the Council was informed that subsidies to local bodies for the maintenance of secondary schools were fixed for a triennium and were revisable only after the lapse of that period, that it was open to the council to sanction such increase of salary to the establishment as it deemed necessary and that when the subsidies were next revised in 1928-29, the additional expenditure entailed by the increased salaries would, if considered reasonable by the Govt be taken into consideration in determining the subsidy payable for the school. As the Govt. had under consideration the general question of the revision of the system of subsidies and as no

para 3, p 1 of (A)

pp 7-10 of (C)

p 30 of (C)

decision had been arrived at on the question, the subsidy payable to local bodies for secondary education was not revised (at the end of the triennium) either in 1928-29 or in 1929-30. With effect from the current year the Government have adopted a system of lump sum subsidies to local bodies for secondary education. The lump sums represent the amounts paid to each local body in 1929-30 with an addition of 5 per cent. The lump sum subsidy sanctioned in the current year is not liable to revision in future except in the case of schools in ~~backward areas~~ the Agency tracts. Under the new system the subsidy of Rs.8,550 paid to the Municipal Council has been increased by five per cent. No further increase is admissible under the rules. It may be pointed out that this question was considered in Sept. 1930 and this Govt. declined to sanction any addl. subsidy.

2. The proposal for extensions to the building of the Municipal ~~Kaaaaaaa~~ High School, Bellary, was considered as a Part II scheme for 1931-32. The proposal was dropped, ~~so that funds might be made available for the scheme for playgrounds for the Presidency Colleges.~~ for want of funds. p 119 of (R) In G.O. No. 2575 Edn., dated 17-12-1930, the council was informed that owing to financial ~~stringency~~ stringency the Government were unable to consider the proposal. It may be taken up when the financial situation improves. It will, in the ordinary course, figure near the top of the list of Schemes next year. It was dropped this year at the last moment, to make way for schemes considered more important
